Requirement of the Client

One of Our Client who is large Importer of Stationery articles based out of UK, is looking for a Customized Solution for the entire Category from India, rather than investing their own time they have choose us for their work.

Below are their SKU details.

Our Solution – As we can see from the below list, the Importer is exploring to make a reliable Supply side base for the below 74 lines, rather asking us to provide supplier for Individual product they have requested us for the Bulk Quote for the entire category.

Our work here is to look for the manufacturers who can do most of these articles and abide to the prices and quality parameters of the client.

This type of work is known as Customized solution here we have asked the client to pay a lump sum amount for the entire category of work, rather than asking them to pay for Individual product.

Benefits the Client Get – In around a weeks' time, we have provided them the suppliers who are currently doing these kinds of products and are active in UK market. Out of 74 lines, 66 lines were found in common to the supplier based we have reached for this project.

Our client has saved tremendous Manhours and have a clear perspective on the table, what can be done out from India, saving tons of confusions, back and forth, and they have leveraged their time in doing more useful work.
